

Oxygenating Plants

Sagittaria Graminea

OX023

Narrow leaved arrowhead. Dwarf form with narrow lanceolate leaves and small white flowers. Suitable for ponds, and container water gardening in full sun or partial shade.

Height: 30cm

Spread: 45cm

Depth: 0-10cm

Sizes Available: 9cm / 1 ltr /

J F M A M **J J A** S O N D

Sagittaria Filiformis

OX024

Narrow-leaf arrowhead is a submerged aquatic perennial with submerged and floating leaves. The floating leaves are linear-ovate to ovate in shape and 0.5 cm wide. The long, submerged & ribbon-like.

Height: 30cm

Spread: 60cm

Depth: 8-100cm

Sizes Available: Plug / 9cm / 1 ltr /

J F M A M **J J A** S O N D

Scirpus Cernuus

OX025

Fibre Optic Plant

Glossy thread like leaves and flower spikes with a tiny white flower on the tip of each leaf. Both marginal and oxygenator.

Height: 40cm

Spread: 35cm

Depth: 0-10cm

Sizes Available: Plug / 9cm / 1 ltr / 3 ltr

J F M A M **J J A** S O N D

Vallisneria Americana

OX026

Commonly called wild celery, water-celery, tape grass, or eelgrass. It is commonly home for many pond in habitants as well as food.

Height: 200cm

Spread: 45+cm

Depth: 25-200cm

Sizes Available:  £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A** S O N D

Vallisneria Spiralis

OX027

Long stems with almost feather leaves, small redish flowers. Milfoils whilst attractive are good at diversifying to the habitat and can scramble on the pond surrounds.

Height: 100cm

Spread: 30cm

Depth: 20-100cm

Sizes Available:  £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A** S O N D

Price:	Plug	9cm	1 Litre	3 Litre	5 Litre	10 Litre	30 Litre
Bareroot	£2.00	£3.30	£4.50	£10.00	£15.00	£36.00	£90.00
Potted			£5.50	£11.00	£16.00		

Oxygenating Plants

Potamogeton Crispus

OX017

Curly Pondweed

Perennial bearing submerged, dissected, almost translucent leaves and leathery, floating leaves with undulating margins. The flowers are tiny and whitish.

Height: 100cm
Spread: 100+cm
Depth: 0-100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Potamogeton 'Malaianus'

OX018

Excellent oxygenator, found in many lakes, rivers and streams. Needs to be put somewhere it can be kept under control. The flowers are tiny and whitish.

Height: 100cm
Spread: 100+cm
Depth: 0-100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Potamogeton Octandrus

OX019

Flower cylindrical spiked fruit branches up to 1cm long. Narrow, elliptical floating bright green leaves up to 4cm long x 1cm wide.

Height: 100cm
Spread: 100+cm
Depth: 0-100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Potamogeton Perfoliatus

OX020

This Potamogeton is especially beautiful when its emerald green, semi-translucent leaves are encrusted in bubbles of oxygen.

Height: 100cm
Spread: 100+cm
Depth: 0-100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Proserpinaca Palustris

OX021

Marsh Mermaid - Tadpoles LOVE to munch on this plant! It is found in still or slow-moving water of lakes, rivers, ponds. Above the water they are wide broad leaf and the submersed are thin and toothed.

Height: 90cm
Spread: 45+cm
Depth: 5-40cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Ranunculus Aquatilis

OX022

Water Crowfoot

Bears kidney shaped floating leaves as well as thread like submerged leaves. There are buttercup shaped white flowers held above the water.

Height: 100cm
Spread: 45+cm
Depth: 15-60cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J J A S O N D

Price:	Plug	9cm	1 Litre
Bareroot	£2.00	£3.30	£4.50
Potted			£5.50

3 Litre	5 Litre	10 Litre	30 Litre
£10.00	£15.00	£36.00	£90.00

Oxygenating Plants

Hydrocotyle Sibthorpiodes

OX011

Variegata - Crystal Confetti
Very pretty perennial that forms a carpet of miniature 4 leaf clover type leaves edged with cream.

Height: 45cm
Spread: 45+cm
Depth: 0-25cm
Sizes Available: Plug / 9cm / 1 ltr /

J F M A M **J J A** S O N D

Lilaeopsis Brasilensis

OX012

Brazilian Micro Sword
Forms a lawn like a carpet at the bottom of the pond. It is a good oxygenator. If grown in a shallow pond foliage can emerge above the water.

Height: 5cm
Spread: 60cm
Depth: 8-100cm
Sizes Available: Plug / 9cm / 1 ltr /

J F M A M **J J A** S O N D

Ludwigia Glandulosa

OX013

This submerged pond plant excellent oxygenator. Like lemon bacopa this too will grow slightly above the water and can be grown in ponds or streams as a creeping plant.

Height: 25cm
Spread: 45cm
Depth: 5-36cm
Sizes Available:  £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A** S O N D

Marsilea Quadrifolia

OX014

Water Shamrock - upright Water Clover
This not a real clover it is an under water fern, and the 4 leaf clover leaves rise to the water surface creating a decorative pattern.

Height: 25cm
Spread: 45+cm
Depth: 0-25cm
Sizes Available: Plug / 9cm / 1 ltr / 3 ltr

J F M A M **J J A** S O N D

Myriophyllum Crispatum

OX015

Long stems with almost feather leaves, small redish flowers. Milfoils whilst attractive are good at diversifying to the habitat and can scramble on the pond surrounds.

Height: 45cm
Spread: 45+cm
Depth: 0-25cm
Sizes Available:  £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A** S O N D

Myriophyllum Spicatum

OX016

Spiked Water Milfoil
A true oxygenator this plant remains under water. Red foliage can cope with very deep water. Does not look good out of the water.

Height: 45+cm
Spread: 45+cm
Depth: 30-450cm
Sizes Available:  £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A** S O N D

Price:	Plug	9cm	1 Litre
Bareroot	£2.00	£3.30	£4.50
Potted			£5.50

£10.00	£15.00	£36.00	£90.00
£11.00	£16.00		

Oxygenating Plants

Eleocharis Acicularis

OX005

Dwarf Hairgrass - Needle Spikerush
Rush-like leaves and flowers in spikelets to 5mm (not produced when submerged). Provides good hiding places for fish fry.

Height: 30cm
Spread: 50cm
Depth: 0-60cm

Sizes Available: Plug / 9cm / 1 ltr /

J F M A M J **J A S O N D**

Elodea Canadensis

OX006

Canadian Pondweed -- Anacharis
MUST NOT BE RELEASED INTO THE WILD
Excellent oxygenator if introduced into a natural pond it is invasive for 5-7 years then settles.

Height: 200cm
Spread: indefinite
Depth: 200cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A S O N D**

Fontinalis

OX007

Willow Moss -- Antipyretica
Forms a congested mass of long branched stems covered with short moss like foliage. Good for pond with running water, beautiful species.

Height: 100cm
Spread: 45+cm
Depth: 100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M J **J A S O N D**

Hippuris Vulgaris

OX008

Mare's Tail - Many Herbal Remedies
Roots extend into the anoxic zone of wetland soils and create a conduit for methane produced in the anoxic zone to travel to the atmosphere.

Height: 45cm
Spread: 45+cm
Depth: 0-15cm

Sizes Available: Plug / 9cm / 1 ltr /

J F M A M J **J A S O N D**

Hottonia Palustris

OX009

Water Violet
Hardy water violet bears beautiful spikes of violet flowers which have yellow throats. Found in bright clear ponds or slow moving ditches.

Height: 90cm
Spread: 45+cm
Depth: 5-40cm

Sizes Available: 9cm / 1 ltr /

J F M A M **J J A S O N D**

Hydrocotyle Nova Zealandsiae

OX010

A fast growing oxygenating plant. The rounded emergent leaves have scalloped edges, growing into floating mats. Providing cover for pond creatures, Do not dispose of unwanted plants into the wild.

Height: 45cm
Spread: 45+cm
Depth: 0-25cm

Sizes Available: Plug / 9cm / 1 ltr /

J F M A M **J J A S O N D**

Price:	Plug	9cm	1 Litre
Bareroot	£2.00	£3.30	£4.50

£10.00	£15.00	£36.00	£90.00
£11.00	£16.00		

Oxygenating Plants

NOTE: Elodea Crispa is a BANNED product and is not sold by this company.

A range of pond life that do not rise to the surface to gain oxygen starve the pond of oxygen. Plants are the only living things that can absorb the impurity and through the combination of daylight they separate the oxygen and the carbon, released by fish, insects and amphibians. The carbon they keep for growth and the oxygen they release into the water.

Some plants carry on the good work better than others and these are listed here.

Some of these plants are sold as weighted bunches, these have a lead/ceramic ring weight on bunches of cuttings, the lead is not harmful. Insert these cuttings, still held together with the strips of lead, straight into the pool.

Other plants are sold bare root and have been grown in containers.

This identifies the months that the plant flowers.

Attracts bees

Sun

Shade

Bacopa Caroliniana

OX001

Lemon Bacopa, named for its lemon scent a very interesting pond plant. grows to the surface once above the surface it begins to bloom with tiny 1cm blue flowers. It can also be placed in a bog garden.

Height: 75cm

Spread: indefinite

Depth: 50cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A S O N D**

Callitriche Stagnalis

OX002

Starwort

The mass of stems provide homes for minute life, whilst the young leaves are a delicacy for goldfish. Small tender plants that grow in tight mass.

Height: 75cm

Spread: indefinite

Depth: 50cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A S O N D**

Ceratophyllum Demersum - Hornwort

OX003

The whorls are slender, rather brittle and forked. Useful in more shaded ponds. It is found free floating or lightly anchored to the bottom. **NOTE:** Appears BLACK when dormant during winter & early spring.

Height: 100cm

Spread: indefinite

Depth: 100cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A S O N D**

Egeria Densa AKA Elodea Densa

OX004

A fast-growing, oxygenating pond plant, by absorbing a great number of nutrients from the water. It secretes an antibiotic substance which also helps to prevent blue green algae. Anacharis acts as a filter, catching and holding suspended material in the pond.

Height: will only grow to surface

Spread: modest

Depth: up to 240cm

Sizes Available: £1.50 per bunch or £5.00 for 5 bunches

J F M A M **J J A S O N D**
